Superior Felt & Filtration, LLC responds swiftly to the global demand for surgical hoods, mask components, viral/bacterial and ventilator filters

Superior Felt & Filtration, LLC, based out of McHenry, IL is an essential subcomponent manufacturer supporting the disposable surgical hood, N95 mask component, BFE/VFE, and ventilator filter markets. Meeting the immediate medical filtration needs of the US government and its partners under the Defense Production Act, Superior Felt & Filtration, LLC has a global reach, exporting lifesaving filter technology across 6 continents, making Superior Felt & Filtration, LLC the largest sub-component filter manufacturer in the world. As a strategic partner with Hollingsworth and Vose and utilizing Technostat, a high quality, electrostatic filter media; Superior Felt & Filtration, LLC has partnerships with vital companies in the fight against Covid 19, including Honeywell, GM, Ventec and Phillips.

Featuring one of the largest inventories of raw materials and 24/7 capacity, coupled with decades of experience, Superior Felt & Filtration, LLC has been on the front lines providing life-saving products to combat Covid 19. Frank Porto, Director of Sales, notes “we are incredibly proud of our dedicated employees at Superior Felt & Filtration, LLC who have been working tirelessly day and night to fight this pandemic. We can all take pride that our hard work and sacrifices are saving lives on a global scale.”

To meet the growing need for PPE and lifesaving filtration for first responders and hospitals, Superior Felt & Filtration, LLC is expanding its operations to include new facilities and highly advanced manufacturing equipment which will expand capacity to respond to the growing global demands. With a highly expert and collaborative research and development team, Superior Felt & Filtration, LLC is advancing filtration technology with its global partners; changing the paradigm with more efficient and versatile designs to meet the needs of an ever-expanding filtration market.

Recognizing that the new normal will require a continued surge in innovative and accessible filtration technology, Superior Felt & Filtration, LLC is committed to continuous expansion and capacity to lead the world and its vital partners forward in the fight for health and safety.
